

Road Safety

Created by Year 3

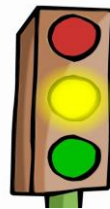

When the red traffic light is showing it means that cars should stop and it is safe to cross. Please remember to stop, look and listen before you cross as sometimes cars do not stop.

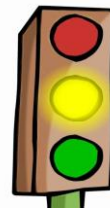

CROSS ONLY WHEN IT IS SAFE TO!

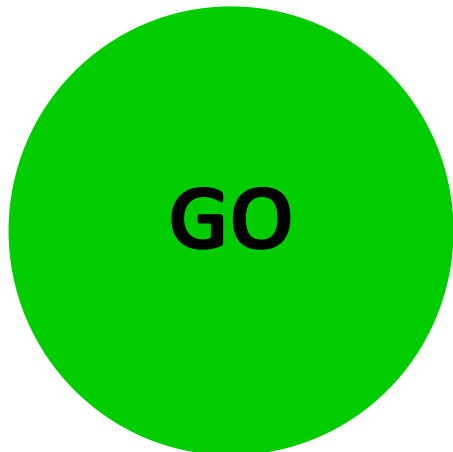

When the amber light is showing this means that the cars should be slowing down to stop but they do not always do this. You should not cross the road at all. **WAIT, DO NOT CROSS!**

WAIT

WAIT

When the traffic lights are green, the cars can go and we need to wait until the traffic lights are red before we can cross the road safely. **DO NOT CROSS!**
