Five Things to do before leaving Year 6

Activity	Achieved at Home
Create your own family regulation tool.	
Make a family time capsule.	
Learn to say 'hello' in five different languages and share with your family.	
Plan and hold a family karaoke night.	
Organise a family book club.	

How can these activities be achieved?

Please see examples below, you can do other activities if you wish.

In class we created a stress doll (balloon and flour) and a worry doll using lolly-sticks and pipe cleaners. Use other resources you have at home to make your own regulation tool and share the tool with your family.

Find a capsule to be buried that contains everyday items, documents, and messages from the present day to be opened by people in the future.

Research how to say 'hello' in different languages of your choosing. These may be languages that other relatives speak. Share your new knowledge with family members.

Find karaoke versions of your favourite songs on YouTube (ensure you have adult permission and supervision) and sing along with your family.

Choose a book that you know every member of your family will enjoy. Agree on a time when all members of your family are available to meet and discuss what they thought of the book (e.g. what they enjoyed, what surprised them, would they recommend it etc.)
