We are learning all the time!

Sometimes this means we get a bit messy!

Exploring in the water tray is giving me lots of maths and scientific skills! I love pouring, filling and emptying! I usually wear an apron but sometimes my clothes get wet!

I am practising really hard to roll up my sleeves when I wash my hands. I am often excited to get back to my work so sometimes my sleeves are a bit soggy!

I sometimes get pen and paint on my clothes! This is because I am developing creative skills and exploring lots of ways of making amazing art!

Exploring with playdough and other messy play resources like foam or food, helps me to develop fine motor control and build up my muscles and co-ordination in my hands and fingers. I will need these when I learn to write.

Our mud kitchen is so much fun! I use all my senses, which is so important for my

development. It also helps me use my imagination and practise playing with my friends nicely!

Playing outside is so important. I run and jump and get lots of fresh air. Sometimes I might get grass or mud on my clothes.

We love to be outside, even if the weather is wet or snowy! This is teaching me many things and is building up my resilience and determination! We usually wear coats and wellies, but sometimes I may get wet.

When I get messy, I have been showing curiosity, determination, persistence, imagination and confidence!
